## Subjects

**Acinetobacter infections**  
*Acinetobacter baumannii*: an emerging multidrug-resistant pathogen in critical care [Montefour] Feb:15  
**Angioplasty, transluminal, percutaneous coronary**  
 Management of patients after percutaneous coronary interventions [Shoulders-Odom] Oct:26  
**Aortic valve stenosis**  
 A new option for the treatment of aortic stenosis: percutaneous aortic valve replacement [Lauck] Jun:40  
**Bacterial infections**  
 Protecting your patients, colleagues, family, and yourself from infection: first wash [Alspach] Feb:7  
*Acinetobacter baumannii*: an emerg-

ing multidrug-resistant pathogen in critical care [Montefour] Feb:15

*Clostridium difficile*-associated disease: diagnosis, prevention, treatment, and nursing care [Pelleschi] Feb:27

**Bereavement support**  
 Implementing a bereavement program [Ross] Dec:88

**Biofilms**  
 In vitro formation of biofilms on Lopez enteral feeding valves: implications for critical care patients and nurses [Solseng] Feb:37

**Blood transfusion**  
 Blood transfusions in the intensive care unit [Rauen] Jun:78

**Cardiomyopathy, hypertrophic**  
 Systolic heart failure in a patient with hypertrophic obstructive cardiomyopathy: a potentially life-threatening complication [Whitten] Oct:44

**Cardiovascular care**  
 Implementing the "Cardiac Huddle" [Hyde] Apr:144

**Management of patients after percutaneous coronary interventions**  
 [Shoulders-Odom] Oct:26

**Cardiovascular diseases**  
 Improving medication adherence in chronic cardiovascular disease [Albert] Oct:54

**Catheter-related infections**  
 Eradicating catheter-associated bloodstream infections in the PICU [Stewart] Feb:72

**Clinical governance**  
 Closed staffing: a staff nurse strategy [Strayer] Dec:51

Clostridium infections

*Clostridium difficile*-associated disease: diagnosis, prevention, treatment, and nursing care [Pelleschi] Feb:27

Competency assessment

Recognizing the primacy of competency and exposing the existence of incompetence [Alspach] Aug:12

Critical care nursing

Seven evidence-based practice habits: putting some sacred cows out to pasture [Rauen] Apr:98

Readers request their own critical care nurse [Alspach] Jun:12

Informing critical care patients of a loved one's death [Watson] Jun:52

Blood transfusions in the intensive care unit [Stacey] Jun:92

Depression

Depression in patients with heart failure: prevalence, pathophysiological mechanisms, and treatment [Thomas] Apr:40

Dosage calculation

Vasoactive medication dosage and daily weight changes [Cooper] Apr:136

Family care

Family presence at the bedside [Carter] Oct:96

Family coping

Informing critical care patients of a loved one's death [Watson] Jun:52

Feeding tube care

In vitro formation of biofilms on Lopez enteral feeding valves: implications for critical care patients and nurses [Solseng] Feb:37

Gastric bypass

By the bedside: role of nurses in my journey to recovery [Wilson] Oct:18

Genetics

Genetics and susceptibility to malignant hyperthermia [Anderson-Pompa] Dec:32

Heart failure, congestive

Depression in patients with heart failure: prevalence, pathophysiological mechanisms, and treatment [Thomas] Apr:40

Hospital discharge education for patients with heart failure: what really works and what is the evidence? [Paul] Apr:66

End-of-life care in the critical care unit for patients with heart failure [Wingate] Apr:84

Systolic heart failure in a patient with hypertrophic obstructive cardiomyopathy: a potentially life-threatening complication [Whitten] Oct:44

Hospice and palliative nursing  
End-of-life care in the critical care unit for patients with heart failure [Wingate] Apr:84

Hyperglycemia

Treatment of hyperglycemia [Buonocore] Dec:72

Hypnotics and sedatives

Propofol infusion syndrome: a rare complication with potentially fatal results [Zaccheo] Jun:18

Malignant hyperthermia

Genetics and susceptibility to malignant hyperthermia [Anderson-Pompa] Dec:32

Hypothermia treatment

Treatment of severe hypothermia with intravascular temperature modulation [Lasater] Dec:24

Medication compliance

Improving medication adherence in chronic cardiovascular disease [Albert] Oct:54

Medication regimen

Vasoactive medication dosage and daily weight changes [Cooper] Apr:136

Range orders for pain medication [Glassford] Aug:66

Myocardial diseases

Viral myocarditis in children [Uhl] Feb:42

Myocardial infarction

Recognizing and managing asymptomatic left ventricular dysfunction after myocardial infarction [Albert] Apr:20

Neuromuscular blockade

Train-of-four results and observed muscle movement in children during continuous neuromuscular blockade [Corso] Jun:30

Nurse attitudes

Lateral hostility between critical care nurses: a survey report [Alspach] Apr:13

Nursing education

Graduate nurses in the intensive care unit: an orientation model [Proulx] Aug:44

Clinically competent peers and support for education: structures and practices that work [Schmalenberg] Aug:54

- Nursing leadership  
Leadership agenda for change toward healthy work environments in acute and critical care [Shirey] Oct:66
- Delegation considerations for nursing practice [Currie] Oct:86
- Nursing management  
Developing characteristics of nursing excellence [Tomes] Aug:80
- Nursing practice, evidence-based  
Seven evidence-based practice habits: putting some sacred cows out to pasture [Rauen] Apr:98
- Nutrition therapy  
Enteral versus parenteral nutrition for acute pancreatitis [Siow] Aug:19
- Pain management  
Range orders for pain medication [Glassford] Aug:66
- Physiology and treatment of pain [Helms] Dec:38
- Pancreatitis  
Enteral versus parenteral nutrition for acute pancreatitis [Siow] Aug:19
- Patient discharge education  
Hospital discharge education for patients with heart failure: what really works and what is the evidence? [Paul] Apr:66
- Pediatric care  
Viral myocarditis in children [Uhl] Feb:42
- Eradicating catheter-associated bloodstream infections in the PICU [Stewart] Feb:72
- Skin care team in the pediatric intensive care unit: a model for excellence [Pasek] Apr:125
- Train-of-four results and observed muscle movement in children during continuous neuromuscular blockade [Corso] Jun:30
- Exceeding PICU goal with 0 VAP cases [Stacey] Jun:92
- Pneumonia, ventilator-associated  
Exceeding PICU goal with 0 VAP cases [Stacey] Jun:92
- Preceptorship  
Calling all preceptors: how can we better prepare and support you? [Alspach] Oct:13
- Propofol  
Propofol infusion syndrome: a rare complication with potentially fatal results [Zaccheo] Jun:18
- Resuscitation, cardiopulmonary  
Family presence at the bedside [Carter] Oct:96
- Skin care  
Skin care team in the pediatric intensive care unit: a model for excellence [Pasek] Apr:125
- Staff nurses  
Closed staffing: a staff nurse strategy [Strayer] Dec:51
- Students, nursing, graduate  
Graduate nurses in the intensive care unit: an orientation model [Proulx] Aug:44
- Temperature regulation  
Treatment of severe hypothermia with intravascular temperature modulation [Lasater] Dec:24
- Tube removal  
Automatic tube compensation during weaning from mechanical ventilation: evidence and clinical implications [Unoki] Aug:34
- Ventilation, mechanical  
Automatic tube compensation during weaning from mechanical ventilation: evidence and clinical implications [Unoki] Aug:34
- Ventricular dysfunction, left  
Recognizing and managing asymptomatic left ventricular dysfunction after myocardial infarction [Albert] Apr:20
- Work environment  
Confirmation of a healthy work environment [Kramer] Apr:56
- Clinical units with the healthiest work environments [Schmalenberg] Jun:65
- Clinically competent peers and support for education: structures and practices that work [Schmalenberg] Aug:54
- Leadership agenda for change toward healthy work environments in acute and critical care [Shirey] Oct:66
- The practice of clinical autonomy in hospitals: 20 000 nurses tell their story [Kramer] Dec:58
